DETAILED ACTION

On July 31, 2007, an Office Action was sent to the Applicant rejecting claims 1-41, 46-115, and 120-148. On October 30, 2007, the Applicant responded with arguments.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-41, 46-115, and 120-148 are rejected under 35 U.S.C. 102(e) as being anticipated by Fei (2003/0018549), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed October 30, 2007 have been fully considered but they are not persuasive. The Applicant argues that the Examiner did not address each and every claim limitation and requests a new non-final action. In response, due to the large number of claims in the pending application (well over 100 claims), the Examiner pointed out the portions of the reference the she felt read onto the claims. For the remaining claim limitations, the Examiner stated "and associated depending claims" and referenced the relevant portions of the claims. Therefore, the Examiner addressed all claim limitations, and this Action is being made final.

The Applicant argued that Fei does not disclose "accounting software application". In response, Fei discloses that account information is received from merchants and account history is generated daily and monthly (p.2, 22-23). Therefore, the software of Fei is being interpreted as being an accounting software application.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
